

An invitation to journey into the Exmoor landscape for a once in a lifetime experience!

Saturday May 28th

Green Space Dark Skies is an ambitious national project presented by Walk The Plank.

Bideford based outdoor arts company **Red Herring** is the local producer, they are inviting local people and groups to help make something amazing happen in a beautiful, secret location on Exmoor.

By signing up as a participant, you become a **Lumenator!** You will become part of making an extraordinary outdoor light-based artwork. An artwork where everyone who takes part carries a **Geolight**, specially designed low environmental impact lights, which will create magical patterns in the landscape at dusk. The artwork will be filmed and released a few days later for all participants to watch.

If you want to explore and celebrate our special wilderness and be part of something truly special happening across the UK, then take a journey with us on Exmoor.

You can sign up here <https://greenspacedarkskies.uk/events/england-exmoor-np/>
